

MD. OMUR FARUK

ComputerScience & Engineering Student | AI/ML & Networking Enthusiast
Mirpur, Dhaka-1216 | 01405505752 | omurfaruk199823@gmail.com | github.com/Omur1998

PROFESSIONAL SUMMARY

Computer Science and Engineering student at ULAB with an academic focus on Data Science and Computer Networking. Hands-on experience in AI/ML, NLP, IoT, research, and networking-related projects, including an NCTB-based educational AI system using OCR, RAG, embeddings, and FAISS. Seeking an internship opportunity to apply technical and analytical skills while learning and contributing professionally

EDUCATION

- BSc in Computer Science and Engineering — University of Liberal Arts Bangladesh (ULAB) | 2022–2026
  CGPA: 2.74(without internship result)
- Higher Secondary Certificate (HSC) | 2019–2020
  Science

TECHNICAL SKILLS

Programming:HTML,CSS,Python,C.
AI/ML & NLP: NLP, OCR, RAG, Semantic Similarity, Embeddings
Retrieval & Data: FAISS, BM25, RRF
Tools: Google Colab, Git/GitHub,Arduino IDE etc
IoT: ESP32, Sensors, Relay Control, Automation
Networking: Computer Network Fundamentals

PROJECTS

AdaLLM — NCTB Educational AI Chatbot | Capstone Project

- Developed a Bengali AI chatbot for NCTB Class 8 BGS and Science textbooks.
- Built hybrid retrieval using FAISS, BM25, and RRF, with OCR and layout-based extraction using Tesseract and DocLayout-YOLO.
- Fine-tuned Gemma 3 4B-IT using QLoRA and deployed locally with Ollama.

Justice Link BD — Digital E-Governance & AI-Based Public Safety Platform

- Developed a platform connecting citizens and law enforcement with anonymous and encrypted reporting.
- Integrated AI-based fake-report filtering and an emergency SOS module with 500-meter geo-fencing.

Smart Greenhouse Monitoring & Control System

- Developed an ESP32-based IoT system using DHT22, soil moisture, and LDR sensors for automated environmental monitoring and control

RESEARCH PUBLICATIONS

“AdaLLM: A Subject-Adaptive RAG Framework Designed for the Question Answering Process of NCTB’s Class-8 Science & BGS Subjects.”— Accepted
“ReinforcementLearning-Based Per-Company Weight Personalization for Intelligent Talent Matching.” — Under Review
